

Inner Circle:

We can make ourselves aware of peer pressure and how to avoid it.

Ways to avoid peer pressure in our inner circle:

- 1. We can ignore them*
- 2. We can directly say, "No!"*
- 3. We can complain to any known and responsible adult*
- 4. We can ask them a silly question which will annoy them and they will no longer do peer pressure*
- 5. We can make them feel the consequences of the wrong act they are forcing us to do*

Community:

We can make the people of our neighborhood aware that we should be careful when people are putting us under peer pressure.

Ways to reduce the peer pressure in the community:

- 1. We can put up some drawing of avoiding peer pressure in the colony, school or the multi-storey building you live*
- 2. We can help someone if we see a person putting him/her under peer pressure. Eg. of my society: In my previous society, my friend's father's friend was forcing my friend's father to smoke.*
- 3. We can do street plays to inform about peer pressure*

World:

We can basically spread awareness by:

- 1. Creating YouTube videos*
- 2. Creating Blogs in websites which people mostly visit.*
- 3. We can make websites and try to embed them in other websites which people mostly visit, like Wikipedia.*
- 4. We can create advertisements.*
- 5. We can create advertisements using some of the most famous cartoon characters like Lightning McQueen.*
